

DESIGN PROFESSIONALS **RISK MANAGEMENT SERVICES**

Avoid lawsuits, negative publicity and costly insurance claims.

We provide risk management services for architects, engineers, and other design professionals. Our specialists bring a unique and valuable perspective to this field because they have diverse experience and expertise – including experience with public and private sectors, as well as large and small projects.

We work with your design firm team to:

- Review contracts – providing a second set of eyes to highlight any potential contract issues.
- Make recommendations for contract changes to reduce risk and help communicate any changes with the client.
- Provide risk management support through professional guidance in the form of self-assessment tools, information about best practices, quick-tip videos and up-to-date industry news.

Exceptional resources for reducing risk.

Specializing in risk consulting, contract review and risk management support for a broad range of professional organizations.

- Risk Consultation
- Online Self Assessments
- Web-Based Resources & Tools
- Risk Management Helpline
- Risk Tips & eNews Alerts
