

PHYSICIANS AND MEDICAL PRACTICES

Avoid lawsuits, negative publicity and costly insurance claims.

Our consultants draw on many years of experience and clinical expertise to help physicians and medical practices develop strategies to control risks and improve patient safety. Our specialists can help practices review and understand regulations, standards and compliance guidelines. We also can provide overall risk assessment for the practice and offer tips for assessing the culture of safety and conduct.

We offer training specific to physician practices on these subjects:

- Communication after an adverse outcome
- Patient satisfaction
- HIPAA and HITECH compliance
- Social media
- Coordination of care
- Patient handoff
- Tracking test results
- Terminating a patient
- Managing expectations
- Staff selection and credentialing
- Crisis media management
- Supply chain risk management
- Medication safety
- Telemedicine and tele-health

Exceptional resources for reducing risk.
